To Whom It May Concern,

Yaskawa Solectria Solar is a premier manufacturer of grid-tied inverters for use in solar photovoltaic (PV) applications including Commercial and Utility systems and PV + Storage. Yaskawa Solectria Solar manufactures its products at state-of-the-art facilities in the USA.

Yaskawa Factory in Buffalo Grove, IL
- XGI 1000 Series Inverters
- XGI 1500-166 Series Inverters
- XGI 1500-250 Series Inverters

Yaskawa Factory in Oak Creek, WI
- Storage System Components:
  DCR-1500 Re-Combiner
  DCB-1500 De-Combiners
  ACC-1500 AC Combiners
- CR1500 & CA1500 PV Combiners

Each of these products meets the requirements to be labeled "Made in the USA with Global Components" and "Buy American Act Compliant." The qualifications for each designation are outlined below.

Made in the USA with Global Components
The Federal Trade Commission provides guidance on qualifying with its **Made in USA Standard**, and the proper application and use of the term "Made in the USA" (https://www.ftc.gov/system/files/documents/plain-language/bus03-complying-made-usastandard.pdf). The Yaskawa Solectria Solar products listed above all meet this standard.

Compliant with the Buy American Act of 1933 (BAA)
In addition to meeting the requirements for the Made in the USA with global components, the above products meet the Federal Acquisition Regulations (FAR) definition of a Commercial OffThe-Shelf (COTS) item. This is defined as, *"a commercial item (Item that can be sold, leased, or licensed to the general public); Sold in substantial quantities in the commercial marketplace; and Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace."*

Yaskawa Solectria Solar is proud to provide quality products manufactured in the USA with global components.
