## Confirmation of California Rule 21 Compliance

The Yaskawa Solectria Solar American-built XGI 1500 inverter line, plus the PVI 25TL, PVI 50TL, and PVI 60TL inverters, comply with current CA Rule 21 requirements. Yaskawa Solectria Solar has completed the CSIP testing process for the inverters listed below, demonstrating the successful operation of the required functionality.

XGI line	PVI line
XGI 1500-125/125 (125kW/125kVA)	PVI 25TL-480-R (25kW/25kVA)
XGI 1500-125/150 (125kW/150kVA)	PVI 50TL-480 (50kW/50kVA or 50kW/55kVA)
XGI 1500-150/166 (150kW/166kVA)	PVI 60TL-480 (60kW/60kVA or 60kW/66kVA)
XGI 1500-166/166 (166kW/166kVA)	

“As the only US-based string inverter manufacturer, our customers look to us for leadership in meeting the requirements for advanced grid-support functions. Now it is very easy to comply with Rule 21 using the CEC-approved Yaskawa Solectria Solar inverters.” says Miles C. Russell, Director of Product Management at Yaskawa Solectria Solar.

In order to comply with Rule 21 requirements, one of the listed inverters shall be used. No other current requirements are necessary. In the future, when these advanced CSIP functions are requested, these inverters can be used with any CEC approved aggregator for compliance.

### -About Yaskawa Solectria Solar-

Yaskawa Solectria Solar, a wholly-owned subsidiary of Yaskawa America, Inc., is the largest commercial inverter manufacturer in the U.S. Solectria’s products include 14kW to 750kW inverters, string combiners and web-based monitoring for all sized solar systems. Solectria is backed by over 100 years of power electronics and inverter experience. All of Solectria’s three-phase central inverters are made in the USA. PV System owners, developers and EPCs rely on the high performance, reliability and bankability of Yaskawa Solectria Solar. To learn more please visit [www.solectria.com](http://www.solectria.com).
