

**YASKAWA SOLECTRIA SOLAR  
MADE IN THE USA, BAA and BABAA COMPLIANT**

Yaskawa Solectria Solar is a manufacturer of premier grid-tied inverters for use in solar photovoltaic (PV) applications including Commercial and Utility systems and PV + Storage. Yaskawa Solectria Solar manufactures its products at state-of-the-art facilities in the USA.

**Yaskawa Factory  
Buffalo Grove, IL**

- XGI 1500-166 Series Inverters
- XGI 1500-250 Series Inverters

**Yaskawa Factory  
Oak Creek, WI**

Storage System Components

- DCR-1500 Re-Combiner
- DCB-1500 De-Combiners
- ACC-1500 AC Combiners

CR1500 & CA1500 PV Combiners

Each of these products meets the requirements to be labeled “Made in the USA with Global Components” and “Buy American Act Compliant.” Each product also meets the requirements of the Build America, Buy America Act (BABAA) of 2021 as domestically-produced manufactured products. The qualifications for each designation are outlined below.

**Made in the USA with Global Components**

The Federal Trade Commission provides guidance on qualifying with its Made in USA Standard, and the proper application and use of the term “Made in the USA”

(<https://www.ftc.gov/system/files/documents/plain-language/bus03-complying-madeusastandard.pdf>). The Yaskawa Solectria Solar products listed above meet the requirements of this standard.

**Compliant with the Buy American Act of 1933 (BAA)**

In addition to meeting the requirements for the Made in the USA with global components, the above products meet the Federal Acquisition Regulations (FAR) definition of a Commercial Off-The-Shelf (COTS) item. This is defined as: “a commercial item (Item that can be sold, leased, or licensed to the general public); Sold in substantial quantities in the commercial marketplace; and Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace.”

**Build America, Buy America Act (BABAA)**

The BABAA requires that all iron, steel, manufactured products, and construction materials used in federally funded projects for infrastructure must be produced in the United States. Yaskawa Solectria Solar’s XGI 1500 Series Inverters, Storage System Components and PV Combiners are Manufactured Products, Made in the USA, as explained above, and meet this BABAA requirement.

Yaskawa Solectria Solar is proud to provide quality products manufactured in the USA with global components. For further information please contact Yaskawa Solectria Solar or visit [www.solectria.com](http://www.solectria.com).
