

## COUNTRY of ORIGIN

### YASKAWA SOLECTRIA SOLAR XGI 1500-166 Series and XGI 1500-250 Series Utility-Scale Inverters

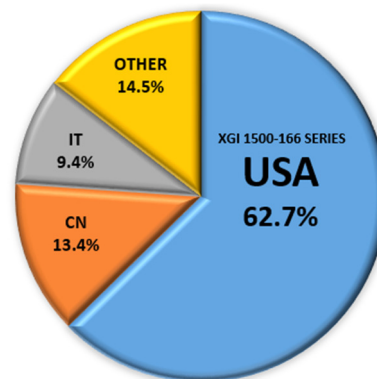

Yaskawa Solectria Solar (*Solectria*) is a premier US-based manufacturer of grid-tied photovoltaic inverters for use in commercial and utility photovoltaic systems. The company's headquarters is located in Lawrence, MA, and Solectria manufactures its premium line of XGI 1500 inverters at Yaskawa America's world-class facilities in Buffalo Grove, Illinois.

Solectria is pleased to present this summary of the Country of Origin\* for the components in the XGI 1500-166 and XGI 1500-250 series inverters. The charts below show the breakdown; US content exceeds 50% for both inverter lines.

#### XGI 1500-250 SERIES

- XGI 1500-250/250-600
- XGI 1500-225-600
- XGI 1500-200/200-480
- XGI 1500-175-480

#### XGI 1500-166 SERIES

- XGI 1500-166/166-UL    XGI 1500-166/166-A
- XGI 1500-150/166-UL    XGI 1500-150/166-A
- XGI 1500-125/150-UL    XGI 1500-125/150-A
- XGI 1500-125/125-UL    XGI 1500-125/125-A
- XGI 1500-125/125-3S
- XGI 1500-166/166-3S

Yaskawa Solectria Solar is proud to provide the industry's highest-quality inverters, engineered in Massachusetts, manufactured in Illinois, and installed wherever the sun shines in the U.S.
