

FOR IMMEDIATE RELEASE**Yaskawa Solectria Solar Is Advancing Solar Power***Showcasing Solar Solutions at RE+2025, Booth V11047*

Lawrence, MA, August 26, 2025 – Join the Yaskawa Solectria Team in Las Vegas, NV September 8 - 11 for RE+ 2025, the fastest growing and largest clean energy tradeshow event in North America! Exhibiting at the Venetian EXPO, Level 2 Booth V11047, Yaskawa Solectria Solar continues to advance solar power and will showcase two new product solutions with you.

We are pleased to introduce our new, American made powerful, scalable [XGI 1500 Modular Central Inverters](#) for utility-scale projects of any size. Our XGI 1500-1MW Series Inverters bring together the very best from Yaskawa Solectria Solar: proven technology with US-based design, engineering, and manufacturing.

“We are very excited to introduce this new line of Utility-Scale inverters and the patented MegaSkid™ building block for large projects” said Miles C. Russell, Director of Product Management at Yaskawa Solectria Solar. “This will accelerate our growth in the Utility-scale solar market and enable us to bring the very best of our technology to our customers”.

Another product addition includes the [PVI-100TL-480](#), which is the largest 1000V transformerless inverter from Yaskawa Solectria Solar. IEEE 1547-2018 compliant, it comes standard with AC and DC disconnects, six MPPTs, and a wiring box with 24 fused positions. Ideal for larger rooftop PV systems, the Yaskawa Solectria Solar's PVI-100TL-480 inverters provide flexibility, size and convenience unmatched in the industry.

With over 20 years of experience, Yaskawa Solectria Solar remains committed to delivering the highest-quality solar inverters, driving innovation in the industry, and providing the full circle [Solectria O&M ECO-SYSTEM](#) to the marketplace. We combine best-in-class product longevity with the tools needed to keep your site operating at top performance. We don't just sell great American-made solar products – we back them up by supporting you.

Visit Booth V11047 To Learn More About:

Our Yaskawa Solectria Solar product family features the flagship [SOLECTRIA® XGI inverters](#) for 1500V commercial and utility-scale systems, a full lineup of string combiners designed for the XGI inverters, 1-2MW factory-integrated [PowerRacks](#), and [DC-coupled storage solutions](#).

Visit our [RE+2025 Yaskawa Solectria Solar webpage](#) for further **show details and to schedule an onsite meeting** with our team!

About Yaskawa Solectria Solar

Yaskawa Solectria Solar, a wholly-owned subsidiary of Yaskawa America, Inc., is the largest commercial inverter manufacturer in the U.S. Solectria's products include 25kW to 250kW inverters, string combiners and web-based monitoring for solar systems of all sizes. Solectria is backed by over 100 years of power electronics and inverter experience. All of Solectria's XGI 1500 three-phase utility-scale inverters are made in the USA. PV system owners, developers and EPCs rely on the high performance, reliability and bankability of Yaskawa Solectria Solar. To learn more please visit www.solectria.com.

Yaskawa is the leading global manufacturer of low and medium voltage variable frequency drives, servo systems, machine controllers and industrial robots. Our standard products, as well as tailor-made solutions, are well known and have a high reputation for outstanding quality and reliability. To learn more please visit www.yaskawa.com.
